

## **SIGN THE PETITION!**

*To Alaska Department of Environmental Conservation: I want to keep Alaska's clean water clean and ensure our seafood stays safe and healthy. Please issue an administrative action in 2016 to raise Alaska's Fish Consumption Value to 175.0 grams/day/person, and reduce Alaska's acceptable cancer rate from 1 in 100,000 to 1 in 1,000,000 as is common in other states.*
