

We Eat Fish!

Organizer Overview

Thank you for checking out the materials in this “We Eat Fish!” action kit. The tools enclosed are all about empowering Alaskans to take action to protect our clean water. Individuals, families, tribes, and communities across the state depend on Alaska’s healthy seafood.

It is our hope that this campaign will provide opportunities for communities to celebrate their way of life, while compelling the State of Alaska to implement appropriate protections for our clean water and safe seafood.

How you can help:

- **Spread the word** amongst friends, neighbors, community members, etc.
- **Help gather support** via petition signatures, personal letters, resolutions, etc.
- **Share the film** within your community, organization, tribal council, etc.

Included in this advocacy kit:

- We Eat Fish! DVD
- Fliers for film screening
- Tips/checklist on putting together your We Eat Fish! screening
- Fact sheets
- FAQ packets
- Inside Passage Waterkeeper stickers
- “For the love of salmon” shirt to be raffled at film screening
- Film talking points and discussion questions
- Petition to collect signatures
- Sample handwritten letter to the DEC and EPA
- Sample resolution
